

APPENDIX

Evaluation is based on the top THREE (3) Procedures and/ or Diagnosis Related Groups (DRGs) and Complex Procedures, if applicable. Doctors who attended to less than 10 cases for each procedure/ DRG are excluded from statistical analysis.

Sub-parameter Rating System

"#" is denoted when your rate is statistically significant compared to peers in the same specialty and is poorer compared to the external benchmark, if available.

*Mortality rate is based on Category 3 mortality cases, where Category 3 is defined as unexpected death which was possibly preventable and was (a) due to lack of treatment or delay in treatment; or (b) caused by medical intervention. (Reference to MOH directives (04/2013) for mortality and morbidity systems review for prescribed healthcare institutions: Regulation 12 A (1)(b) of the private hospitals and medical clinics regulations (CAP 248, RG 1)

Source of External Benchmark

Indicator: Readmission Within 28 days For Complications After Prostatectomy

Reference: Australian Institute of Health and Welfare 2019. Admitted patient care 2017-18: Australian hospital statistics. Health services series no. 90. Cat. No. HSE225. Canberra: AIHW

Legend:

N.A: Not applicable

| Name of Doctor | Top 3 Procedures and/or DRGs and the Adjacent DRGs | Sub-Parameters | Numerator | Denominator | Rate | Internal Benchmark | External Benchmark | Sub-parameter Rating |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|-----------|-------------|------|--------------------|--------------------|----------------------|
| DR CHIN CHONG MIN | Endoscopic Procedures on Bladder - Cystoscopy - Endoscopic biopsy of bladder - Endoscopic resection of lesion(s) on bladder | Return to OT for Complications During Index Hospitalisation | 0 | 30 | 0.0% | 0.1% | - | |
| | | Complications During Index Hospitalisation | 0 | 30 | 0.0% | 0.2% | - | |
| | | Readmission within 28 days for Complications | 0 | 30 | 0.0% | 0.1% | - | |
| | | *Mortality Rate | 0 | 30 | 0.0% | 0.0% | - | |
| | Extracorporeal Shockwave Lithotripsy [ESWL] of Urinary Tract | Return to OT for Complications During Index Hospitalisation | 0 | 24 | 0.0% | 0.0% | - | |
| | | Complications During Index Hospitalisation | 0 | 24 | 0.0% | 0.0% | - | |
| | | Readmission within 28 days for Complications | 0 | 24 | 0.0% | 0.0% | - | |
| | | *Mortality Rate | 0 | 24 | 0.0% | 0.0% | - | |
| | Endoscopic Procedures on Ureter - Endoscopic fragmentation of ureteric calculus - Endoscopic insertion / removal / replacement of ureteric stent | Return to OT for Complications During Index Hospitalisation | 0 | 15 | 0.0% | 0.0% | - | |
| | | Complications During Index Hospitalisation | 0 | 15 | 0.0% | 0.3% | - | |
| | | Readmission within 28 days for Complications | 0 | 15 | 0.0% | 0.4% | - | |
| | | *Mortality Rate | 0 | 15 | 0.0% | 0.0% | - | |
| | Prostatectomy - Laparoscopic radical prostatectomy - Radical prostatectomy - Endoscopic laser ablation of prostate | Return to OT for Complications During Index Hospitalisation | 0 | 15 | 0.0% | 0.0% | - | |
| | | Complications During Index Hospitalisation | 0 | 15 | 0.0% | 0.7% | - | |
| | | Readmission within 28 days for Complications | 0 | 15 | 0.0% | 0.0% | 3.5% | |
| | | *Mortality Rate | 0 | 15 | 0.0% | 0.0% | - | |
